

Announcing/Call for Papers

EnviroAnalysis 2010

The Eighth Biennial International Conference on Monitoring and Measurement of the Environment

We are now accepting papers and posters in all areas of environmental/analytical chemistry for the 8th biennial *EnviroAnalysis* conference. For details visit www.enviroanalysis.ca or contact Dr. Ray Clement (ray.clement@ontario.ca).

Toronto, Ontario, Canada

May 10-13, 2010

The Toronto Airport Hilton Hotel, 5875 Airport Road
Mississauga, Ontario, Canada, L4V 1N1 +1-905-677-9900

Highlights of Conference

Over 20 sessions covering important areas of Environmental/Analytical Chemistry:

- Advanced Chromatography Techniques
- New Persistent Organic Pollutants
- Water Analysis & Regulations/Industrial Applications
- Microbiology Methods & Immunoassay
- Low & High Resolution ICP/MS & Atomic Spectroscopy
- Fast GC/Time-of-Flight Mass Spectrometry
- Chemical Speciation
- Microwave Extraction
- Quality Assurance & Quality Control
- ...and many others!

2-day Exhibition of over 25 Laboratory Instrumentation Companies & Suppliers
Morning refreshments + Lunches included with registration fees

Other Features:

- Karasek Awards for best student papers
- Presentation of Caledon Award
- Professional Courses/Workshops (May 13)
