

American Chemical Society
Environmental Chemistry Division
Long Range Planning Meeting Report

The Environmental Chemistry Division's Long Range Planning Committee met in Anaheim, CA, on March 21, 1999.

Business discussed included:

- (1) Identifying and encouraging students and affiliates to become members of the Division of Environmental Chemistry;
- (2) Improved advertising of the Division's long range planning meeting, the programming planning meeting and the executive and business meetings;
- (3) "Designer" symposia that may potentially compete with Division programming at ACS National Meetings; and
- (4) Involving membership in Division governance.
