

## Call for Papers

### Chemistry of AOP Radicals during Water and Wastewater Treatment

Sponsored by the Division of Environmental Chemistry

240th American Chemical Society (ACS) National Meeting & Exposition  
Boston, Massachusetts  
August 22-26, 2010

Abstract Deadline: **March 22, 2010**

The proposed symposium seeks new and innovative research applications that focuses on the chemistry of advanced oxidation processes (AOP) radicals for water and wastewater treatment. Appropriate topics for this session include, but are not limited to, research related to radical reaction kinetics, efficiencies of contaminant removal, the stable products formed by the oxidation and reduction of chemical contaminants, and the importance of water constituents in remediation technologies.

Please submit your abstracts using PACS (<http://abstracts.ocs.org>). Any other inquiries should be directed to:
